February is National Teen Dating Violence Awareness and Prevention Month

An estimated 1 in 10 teenagers will experience dating violence. Some warning signs of abuse include a significant other checking their partner's phone or social media accounts without permission, putting their partner down frequently, isolating them from friends or family, extreme jealousy or insecurity, just to name a few. If you suspect that someone is the victim of dating violence you can reach out to the [VT Network Against Domestic and Sexual Violence](#) or your local law enforcement agency for assistance. You can also visit [loveisrespect.org](http://loveisrespect.org) for additional resources and information.
